

2024 KFN International Symposium and Annual Meeting

Advances in Farm to Table Technologies for Human Health

Oct. 23 (Wed) – 25 (Fri), 2024

ICC JEJU, Jeju Island, Korea

INVITATION

Join us at the 2024 KFN International Symposium & Annual Meeting from October 23-25 at the Jeju International Convention Center in South Korea. This year, our conference theme is "Advances in Farm to Table Technologies for Human Health." We will explore the latest innovations across the food supply chain, focusing on their impact on health. Our program features plenary lectures with esteemed speakers such as Prof. Nikolai Kuhner from Constructor University in Germany, Dr. Danielle R. Reed from the Monell Chemical Senses Center in the USA, and Dr. Takashi Kuriki from Glico Nutrition in Japan. Additionally, there will be international sessions with renowned keynote speakers, diverse scientific sessions, and a captivating exhibition by food-related companies. Your contribution will be invaluable. See you there!

- Pre-registration : 23rd September 2024
